Deadline for public comments to DEQ re water quality permit (401 certification) is today. DEQ wrapped up public hearings this week.

DEQ sent a short letter to FERC in the first weeks I was here flagging some deficiencies in its Draft Environmental Impact Statement. FERC has since finalized the EIS, and DEQ may have sent a letter in response recently, but I'd need to double check that with Sheila and Mary Penny. Any DEQ letters to FERC would be public record and available from DEQ for distribution.

ACP schedule below.
